

Special Belts

Special belts can be manufactured in a standard or coated condition to customer's specific requirements. Belts with punched holes and punched rectangular slots according to customer design for most packaging machines are also available.

Cleated belts

All belts made in thermoplastic polyurethane can be fitted with cleats welded on the backside.

The cleats are welded with an high frequency vibration system, in order to obtain a perfect result without any glue.

Special moulded belts

Different kinds of coating material (foamed or vulcanised polyurethane, natural or synthetic rubber, silicon) available on extruded or moulded belts.

Polyurethane and rubber moulded belts with Special Grey NEOPRENE coating

Vacuum Applications

Classical moulded belt for vacuum applications which create little noise, available with tenax, linatex or yellow PU. coating
